

Buying business water is changing.

Here's a quick guide to help you on your way.

How you buy in England now ...no choice

Local water company

Supplies clean fresh water, takes away rain and waste water. Looks after reservoirs, water treatment, the network of pipes and cleaning waste water.

Your business

You buy water direct from your local water company, with no choice on price, contract and service.

How you'll buy from April 2017

Wholesalers

Your local water company still gets clean fresh water to your business and takes waste water away.
