

Your bill explained

This bill shows the information you'll see if you pay for both water and wastewater with us and you have a water meter.

If we bill you for water or wastewater only, you will only see that information on your bill, but the way we create the bill is the same.

Invoice number

Unique to each bill we produce on your account.

Your site address

The address that water is supplied to and/or wastewater is taken away from and the address the bill relates to.

Water supply

Costs for the clean water you've used.

Used water

Costs for the wastewater that leaves your premises and is treated and cleaned.

VAT charges

You usually only have to pay VAT if you're a chemicals, construction, engineering, manufacturing, mining, textiles or utilities business. If you're not sure get in touch.

Total amount

The total amount you need to pay us.

Direct debit

If you pay by Direct Debit your bill will only have the Direct Debit guarantee on the bottom. We will take payments each month.

Account number

Quote your account number when you get in touch.

Issue date

The date your bill was produced.

Total Charges

Total cost for the water you've used and the wastewater that's left your premises over the time period the bill covers.

Account balance

The amount your account is in credit or how much you still owe us from the last bill.

Payment giro slip

If you don't pay by Direct Debit your bill has a Giro slip on the bottom. You can pay online at water-plus.co.uk, take this slip to your bank or building society, send it to us with a cheque in the post, or use the account information to pay through your own internet banking.

The Direct Debit Guarantee

This Guarantee is offered by all banks and building societies that accept instructions to pay Direct Debits

- If there are any changes to the amount, date or frequency of your Direct Debit Water Plus Limited will notify you 10 working days in advance of your account being debited or as otherwise agreed. If you request Water Plus Limited to collect a payment, confirmation of the amount and date will be given to you at the time of the request
- If an error is made in the payment of your Direct Debit, by Water Plus Limited or your bank or building society, you are entitled to a full and immediate refund of the amount paid from your bank or building society
- If you receive a refund you are not entitled to, you must pay it back when Water Plus Limited asks you to
- You can cancel a Direct Debit at any time by simply contacting your bank or building society. Written confirmation may be required. Please also notify us.

Meter readings

Shows what your last and most recent meter reading is. (A) means an actual meter read and (E) means it's estimated based on your history of readings and water usage. Take your own meter readings regularly and send them to us via our website to control the accuracy of your bill.

Water usage

We use the difference between your previous and latest readings to work out how much water you've used (volume) and what you need to pay for.

Potable water

Water that's safe to drink and use in food preparation.

Metered potable water metered fixed charges

The new name for the fixed charge. This covers the cost of services to the number of meters at your premises.

Metered potable water supply point fixed charges

The new name for the standing charge. This is a fixed price based on the size of your water meter to contribute to the cost of water network.

Metered potable water block tariff

The price you pay for each meter cubed of water used. The wholesaler sets the price for the year, starting in April.

Previous bill

How much your last bill was.

Payments received

How much you've paid us since your last bill. If you pay by Direct Debit it will show all the payments.

Amount brought forward

How much your account is in credit or how much you still owe us. If you're in credit we take this off the most recent bill. If you still owe us money we add this on to the total amount.

Supply point Identification number

A unique reference number used to identify the water and/or wastewater services that are supplied to your premises.

Cost of water used

The amount of water you've used, multiplied by the cost in pence, gives the overall cost of the water you've used over the time period of the bill.

Charge period

You may see more than one set of charge period dates if prices have changed because you've gone on to a new contract or the wholesale price has changed in a bill that includes April.

Total							£89.30

Key: E - Estimated Read, A - Actual Read

Used water fixed charge

A fixed cost to contribute towards the wastewater network.

Cost of wastewater

Based on the amount of water you've used but with a discounted price, as not all water you use goes back into the sewer because of losses like evaporation.

Metered sewerage supply point fixed charges

A new name for the fixed charge towards services and the cost of taking wastewater away from your property.

Metered sewerage block tariff

The new name for the cost of the wastewater that left your business premises.

VAT @ 0.00%	£20.52
Total amount	£680.41

Surface water drainage - Surface water is rain that falls on your property. We may be able to reduce your wastewater charges if this rain does not drain in to the public sewer. For details, please call us on 0345 072 4072.

Rateable value - When the water we supply isn't metered, your charges have to be worked out based on the 1989/90 rateable value of your property. The charges are calculated by multiplying the rateable value of your property by the appropriate rates for the services which you receive. If you would like more information on having a water meter fitted, please visit our website at water-plus.co.uk
