

# Form B

## Application for a Permanent Sewer Connection

**Waterplus**  
with you every drop of the way

Water Plus are experienced in all technical aspects associated with attaining new water, wastewater and temporary connections. If you require help with any part of the process, please contact us.

Specialist support includes WIRS accredited design, water and drainage modelling, flow and pressure testing. Also covered is completing application forms and liaising with Scottish Water, through to soil investigations (SI), mains installation, pressure testing and chlorination and ultimately, final connections.

**To speed up the processing** of this form please fill in all the details. Applications can only be finalised once this form is completed and emailed to **scotlandconnections@water-plus.co.uk along with these four\* documents:**

1. Site location plan
2. Sewer design proposals
3. Calculations supporting discharge figures
4. Written confirmation of Local Authority comments (where applicable)

\*Water Plus provides a design service to create these documents according to your requirements (and can provide a quote to complete the documents).

### 1. Contact details:

#### 1.1 Main contact

Company name:

Contact name:

Main contact is the:  Owner  Contractor  Tenant

Address:

Postcode:

Contact number:

Mobile:

Site contact email:

#### 1.2 Tenant details

Are these the same as section 1.1?  Yes  No  
If **yes**, go to section 1.3. If **no**, please fill in the section below.

Company name:

Contact name:

Owner  Contractor  Tenant

Address:

Postcode:

Contact number:

Mobile:

Email:

### 1.3 Billing contact details for water charges

Are these the same as section 1.1? Yes or section 1.2? Yes  
If **yes** for either section, go to section 1.4. If **no**, please fill in the section below.

Company name:

Contact name:

Owner

Contractor

Tenant

Address:

Postcode:

Contact number:

Mobile:

Email:

### 1.4 Billing contact details for the person who is paying for the connections charges

Are these the same as section 1.1? Yes or section 1.2? Yes or section 1.3? Yes  
If **yes** for either section, go to section 2. If **no**, please fill in the section below.

Company name:

Contact name:

Owner

Contractor

Tenant

Address:

Postcode:

Contact number:

Mobile:

Email:

## 2. Site details:

### 2.1 Site to be connected

For larger sites with multiple occupancy. Please **complete and attach** the form entitled Additional Occupants.

Address:

Postcode or grid reference:

Expected moving in date:

What was the previous use?:

Existing

Change

Upgrade

If **existing** please give brief details:

If **change or upgrade** please provide the current Supply Point ID (SPID):

Proposed use eg, office, hotel:

If **new**, please provide brief details:

Will the site have multiple tenants?: Yes No

If **yes**, please complete the form entitled Additional Occupants.

Number of residents:

Number of employees:

## 2.2 Planning

What is the name of the local authority?:

Planning reference number:

and date issued:

If no planning approval has been granted, please briefly explain why:

Do you have permission to cross private land (if applicable)?:

Yes

No

## 2.3 Contaminated land

Does the site have any contaminated land or related issues?:

Yes

No

If **yes** please provide details including any data relating to the choice of pipe material:

Have you **attached a copy** of the soil investigation (SI) report with this form?:

Yes

No

If **no**, please email the Connections Team, as they offer a full support service [scotlandconnections@water-plus.co.uk](mailto:scotlandconnections@water-plus.co.uk)

## 3. Connection details:

### 3.1 Purpose of sewer connection

Reason for new connection:

Preferred date of connection:

### 3.2 Connection type

Number of foul water connections required?:

Diameter of foul connections required:

mm

Type of foul connections required:

Number of surface water connections required:

Diameter of surface connections required:

mm

Type of surface connections required:

Number of combined connections required:

Diameter of combined connections required:

mm

Type of combined connections required:

### 3.3 Surface water

Please briefly explain how you intend to deal with surface water:

Where it is proposed to discharge to a watercourse Local Authority approval/comments must be provided. **Please attach** the information.

### 3.4 Water consumption

Predicted annual water consumption:

m<sup>3</sup>

If more than 1500m<sup>3</sup> you require a Form E (Pre-development Enquiry)/PDE to be completed

Has this been carried out?:

Yes

No

If **yes**, please provide the reference number:

### 3.5 Estimated discharge

Foul water in litres/second

Average:

l/s

Peak:

l/s

Surface water in litres/second

Average:

l/s

Peak:

l/s

Ensure your calculations reflecting the above discharge figures have been provided.

### 3.6 Water connection details

Please provide the water connection application reference number:

If not available please briefly explain why:

### 3.7 Building/construction water

Have you applied for building water?:                      Yes                      No

If **yes**, what is the reference number?:

If **no**, please briefly explain why

If alternative water has been used or it is a dry build, **please attach evidence** and provide a brief explanation here:

## 4. Declaration

### 4.1 Signed declaration
