Advanced Water Services

Client

Canal & River Trust are a charity that look after 2,000 miles of waterways in the UK – including 2,980 bridges, 1,5809 locks and 335 aqueducts. They protect the heritage of the waterways and work with communities to transform canals and rivers into wellbeing spaces for local people.

Challenge

As well as the waterways themselves, Canal & River Trust are also responsible for the miles of water pipework which run alongside their canals. These pipes often leak, due to their age and weather conditions. The charity needed a reliable leak detection and repair team to be on hand to assist with many nationwide leaks, to help them keep their costs down.

Savings

In just 6 months Canal & River Trust have **saved £83,298 in water consumption**, thanks to our leak repairs. By continuing to work with us as their reliable leak detection and repair service, the Trust has the potential to save even more money in the future.
